

## Controller RGB with remote control

CODE: LB.142

Needed to control the colour change LED light strips with RGB technology. Equipped with remote control to select the desired colour, speed and function. Thanks to the touch-pad, is possible to change colour in continuous mode.

**12-24**  
**V**

**IP20**

### Features

- Light effects: 20 modes
- Operating temperature: -20 °C + 60 °C
- Transmission frequency: 2.4GHz
- IP20 for indoor use
- Over-current and over-temperature protection
- Remote control power supply: 2 AAA batteries
- Remote control range: 30 m, in open field

### Technical data

| Article | Volt      | Max power  | Current | Size (mm) | N. output |
|---------|-----------|------------|---------|-----------|-----------|
| LB.142  | 12-24V DC | 144W (24V) | 3x6A    | 45x85x24  | 3 CMOS    |
