

## Joy Light BatteryLED

CODE: BJL200

The BATTERY LED JOY LIGHT curtain is particularly suitable for decorating windows, windows, trees. The battery operation makes it ideal for installation in public places even at man height, both inside, and outside, where it is not possible to have access to the electricity.

Each of the 10 strings is 2 m are long and made by 20 bright LEDs, mounted on a UL26AWG transparent cable.

Each LED is encapsulated in a protective sheath that also makes it weatherproof IP44.

The tent is powered by 3 batteries (AA) housed in the compact battery holder, also IP44 waterproof.

The 8 different light effects are selectable by button on the waterproof battery holder or by practical infrared remote control. The battery holder can be installed wherever you want, and you can control the curtain with the remote control.

Remote control range: 10m (free field)

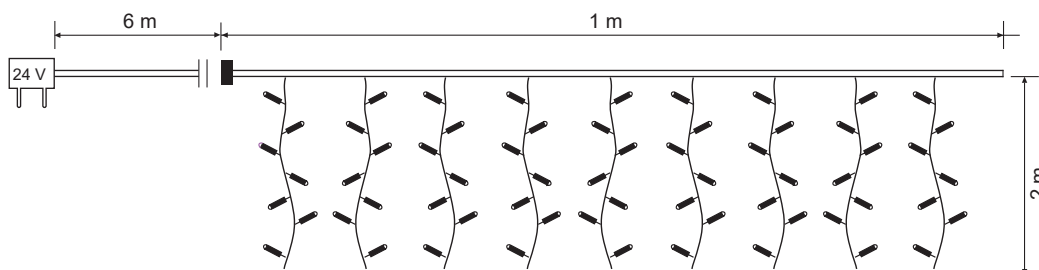

The LEDs provide low power consumption and therefore long operating period. In addition, the controller is equipped with a timer that automatically turns off the lights after 6 hours after the last ignition and equally automatically again after 18 hours. Using new batteries are thus guaranteed up to 15 cycles (steady light) or 30 cycles with flashing light.

IP44
