

Mini amplifier RGB

CODE: CTR103

Mini amplifiers for LED strips, specifically designed to control LED products in constant voltage with common anode for voltages between 5V and 24V in direct current. They are able to synchronously repeat the signal in PWM technology. Extremely compact construction.

5-24V

IP20

Features

- Output technology: PWM in constant voltage
- Efficiency: > 97%
- Short circuit and over temperature protection
- Self-consumption current: < 15 mA
- IP20, for indoor use
- Operating temperature: -30 ° C + 70 ° C
- Cable size: AWG18 for power supply, AWG22 for input/output

Technical data

Article	Protection degree	Volt	Max power	Current	Size (mm)	N. output
CTR103	IP20	5-24V DC	144 W (24 V)	3x2 A	33x12x5	3
