

## Mini Cabinet Lamp Aluminium anodized body

### CODE: SERIE LNK.AL

Mini ceiling lamps with aluminium body and anodised finish. The aluminium body allows for greater heat dissipation; they are therefore particularly suitable for use in places with poor ventilation or very hot places (e.g. hoods or above gas cookers).

Use: residential, under cabinets, shop counters Can be combined thanks to male / female connectors placed at the ends. Compact size.

These ceiling lights are ready for connection and are fitted with triphosphorous T5 tube, power supply cord 170 cm approx., switch, connecting cord, fixing screws, clip for snap-on fastening.

A

## Features
