

RGB amplifier

CODE: LT.390

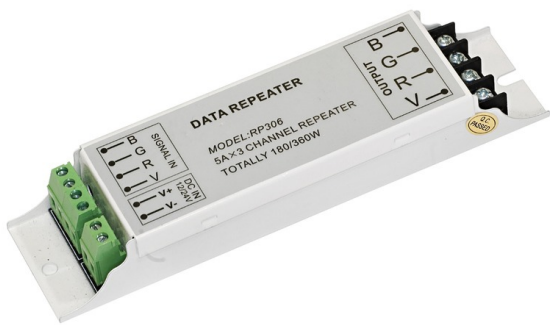

It allows to synchronously replicate the PWM signal coming from the controller.

- Output technology: constant voltage PWM
- Overload and short circuit protection
- Operating temperature: -10 + 40 ° C

12-24

V

IP20

Technical data

Article	Volt	Max power	Current	Size (mm)	N. output
LT.390	12-24V DC	360W (24V)	5A	165x39x26	3
