

## STAR LED linear series with 20 stars

### CODE: ST20

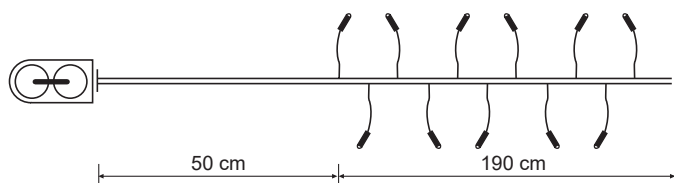

Led linear series constructed with a thin copper pair 0.12 mm<sup>2</sup>. On the wire are mounted high brightness encapsulated microled stars, dimension 14x4mm.

The power is supplied by two button batteries, CR2032 supplied, housed in a with reduced size battery case (5,2x2,3 cm). LEDs provide low power consumption and therefore a long operating time of about 48 hours. Ideal for making light effects in centerpieces, nativity scenes, garlands, plants and flowers, small Christmas trees. To light small spaces.
