

Micro led star light

CODE: MLP1000

Revolutionary generation of LED Star Lights.

These products combine the technology of the digital controller with 8 different effects, with the innovative solution of microled (thickness 2 mm) mounted on thin wires (section 0.15 mm²).

The effect is: the wires are practically invisible, while the micro LEDs are very bright; all it managed by the controller that allows multiple effects.

Electronic plug-in transformer 100-240V - 50/60Hz 26 V - 8,4 VA

Lenght 30 m + power cable 5 m

24V

IP20
