

Stiff rods in basalt fiber

CODE: ASTE DI SPINTA

For electrical installations in false ceiling, floating floors and track conditions. Basalt fiber core guarantees high flexibility resistance, and polypropylene coating reduce friction.

Rods are with different diameters and colours, each is equipped with brass threaded terminal.

The colour indicates different bending radius.

Technical data

Article	Description	Diameter	Length
N66100	raggio di curvatura / bending radius: 410 mm	6,6 mm	1 m
R56100	raggio di curvatura / bending radius: 250 mm	5,6 mm	1 m
G46100	raggio di curvatura / bending radius: 190 mm	4,6 mm	1 m
V30100	raggio di curvatura / bending radius: 150 mm	3,0 mm	1 m

Accessori opzionali
