

Wire push pull rods L=5m set

CODE: SAS.5

Stiff rods in basalt fiber

For electrical installations in false ceiling, floating floors and track conditions.

Basalt fiber core guarantees high flexibility resistance, and polypropylene coating reduce friction.

Rods are with different diameters and colours, each is equipped with brass threaded terminal.

The colour indicates different bending radius.

Basic set composed by:

- 2 pcs. rod Ø 5,6mm L=1m, red colour (item R56100)
- 3 pcs. rod Ø 4,6mm L=1m, yellow colour (item G46100)
- 1 pc. flexible extension cord (item N400)
- 1 pc. round starting head (item TT823)
- 1 pc. pulling eyelet with ring (item OIAA16)
- 1 pc. magnet (item PM14)
- 1 pc. chain (item CC4500)

To facilitate using of the components, it comes in a containing bag.
