

Remote control for TRITON SMART and TRITON MATIC

CODE: TLC

This remote control allows the adjustment of the main parameters of the TRITON SMART and TRITON MATIC luminaires, in the case in which the parameters set by default from the home are not optimal for the type of installation.

This remote control can be used for all TRITON SMART and TRITON MATIC lamp models regardless of wattage and shape.

Features

- Transmission range: 6-8m (in free field)
- 38khz infrared transmission on the carrier
- Power supply: 2 X AAA batteries (not included)
- For indoor use: IP20
