

Mini controller RGB with remote control

CODE: CTR108

Mini controller for RGB LED strips. Specifically designed to drive LED products in constant voltage with common anode for voltages between 5V and 24V in direct current.

Equipped with remote control for selecting color, speed and light effects.

Extremely compact construction and designed for indoor use.

5-24V IP20

Features

- Self-consumption current: < 15 mA
- Output technology: PWM in constant voltage
- Efficiency:> 97%
- 20 different colors
- 19 different light effects
- 10 different speeds
- 5 levels of light intensity
- Remote control frequency: 433.92 Mhz
- Overtemperature and polarity reversal protection
- Operating temperature: -30 ° C + 60 ° C
- IP20, for indoor use
- Cable size: for AWG18 power supply, for AWG22 output
- Remote control power supply: CR2035 battery
- Remote control range: 15m, in open field

Technical data

Article	Protection degree	Volt	Max power	Current	Size (mm)	N. output
CTR108	IP20	5-24V DC	144 W (24 V)	3x2A (picco 3x4 A)	33x12x5	3
