

Mini dimmer 1 channel

CODE: CTR2021

Mini dimmer for LED strips, specially designed to control constant voltage LED products for voltages between 5V and 24V in direct current.

Dimming takes place via push-button control with N.O. on dedicated cable.

Extremely compact construction and designed for indoor use.

5-24V IP20

Features

- Output technology: PWM 1kHz in constant voltage
- Dimming: 256 levels
- Overload, short circuit and over temperature protection
- Self-consumption current: < 15 mA
- Operating temperature: -30 °C + 60 °C
- IP20 for indoor use
- Cable size: for AWG18 power supply, for AWG20 control

Technical data

Article	Protection degree	Volt	Max power	Current	Size (mm)	N. output
CTR2021	IP20	5-24V DC	192 W (24 V)	8 A	33x12x5	1
