

Waterproof 1 channel mini dimmer with remote control

CODE: CTR217

To control 1 channel LED strips in constant voltage, modulating the light intensity as desired.

Thanks to its small size, it can be placed anywhere.

Suitable for outdoor mounting IP68.

5-24V IP68

Features

- Output technology: PWM 1kHz in constant voltage
- Dimming: 256 levels
- 7 levels of light intensity
- Transmission frequency: 433.92MHz
- Overload, short circuit, over temperature protection
- Operating temperature: -30 °C + 60 °C
- IP68 for outdoor use
- Cable size: AWG16
- Remote control power supply: CR2032 battery
- Remote control range: 15 m, in open field

Technical data

Article	Protection degree	Volt	Max power	Current	Size (mm)	N. output
CTR217	IP68	5-24V DC	360W (24V)	15 A	87x21x8,5	1
