

SOLAR POLE HEAD LAMP

CODE: SJT2040 Ideal for 360° lighting.

Equipped with a twilight sensor to allow automatic intervention.

Features

- Very high capacity lithium battery type LifePO4 6.4V -6000 mAh (replaceable with our item SJT2040SB)
- Solar panel: monocrystalline 10.8Wp 10V DC
- LED Type: 224 x SMD 2835
- Power: 20W
- Luminous flux: 2100 lm
- 2 selectable shades of white: 3,000°K 4,000°K
- Light beam opening: 360° • LED average life: 35,000 hours
- Color rendering: >80

- Twilight sensor: intervention with less than 10 lux
- Autonomy: 32 hours (with fully charged battery)
- Charging time: 6 hours
- Operating cycles: 10,000
- Recommended installation height: 2/4 metres
- IP65 outdoor installation
- Body in polycarbonate and ABS resistant to weather, UV rays and impacts IK09
- Operating temperature: -20 +60°C

Technical data

Article	Dimensions	Total consumption	Color	Luminous flux	Weight
SJT2040	Ø400x120 mm	20W	3.000°K - 4.000°K	2.100 lm	2,25 kg
