

RECESSED LIGHT - LINEAR WIDE

CODE: PA.775

Anodized aluminum profile with side fins for fixing to the plasterboard recess.
Thanks to the particular shape of the profile, it is possible to assemble the bars to easily create blades of light without interrupting the luminous surface.
The opal polycarbonate diffuser, with its particular finned shape, hides the profile from view, which will not require shaving once installed.
Also suitable for Quasar LED strips.
For strips up to 40W/m
Length: 2 m

The package includes:
1 diffuser
aluminum profile
