

High polymer fishtape **YELLOW TWISTY**

CODE: YELLOW TWISTY

FOR THREADING INTO RIGID AND FLEXIBLE PIPES Fishtape consisting of 3 twisted polyester wires, self-lubricating, with special "spiral" section, diameter 4.5 mm. Able to reduce friction, as it minimizes the contact surface of the fishtape with the walls of the pipe to be threaded, or of the wires already in the pipeline. Fishtape terminals are made of M5 threaded brass, allowing easy interchangeability of various accessories.

Features

- ideal for threading in pipes up to 40 mm in diameter
- yellow color
- with interchangeable flexible starting spinner and pulling with eyelet
- no electrical conductivity
- great pulling power
- high flexibility
-
